

Conductive Learning Center (CLC) works with children who are affected by motor disabilities such as cerebral palsy, spina bifida, traumatic brain injury & other genetic disorders. At CLC, these children, who are often severely limited in their ability to perform basic, everyday activities, learn to gain control over their movements and acquire the skills necessary to become more independent. They approach each and every day the same way that a runner approaches a big race - setting goals, training, strengthening and conditioning their bodies until they are the best that they can be.

Team CLC runners and walkers are collecting financial pledges on behalf of CLC while they train for the Fifth Third River Bank Run events on May 9, 2015. **The money raised by Team CLC will be used to fund the Champion a Child Scholarship program, enabling more children with motor disorders to “learn their way to independence” at CLC.**
